Ambassador

सत्यमेव जयते
Embajada de la India

भारतीय दूतावास, पेरू और बोलीविया
Embajada de la India, Perú & Bolivia
Embassy of India, Peru & Bolivia

25 March 2022

Dear members of Indian community,

As you are aware, our Embassy in Lima has been, from time to time, requesting all Indian nationals living in Peru and Bolivia to register themselves with the Embassy by providing their details. This information is highly critical, particularly in situations of unexpected emergency, to establish contact and take required action. The importance of correct and complete details of all the Indian nationals, including students living in different areas has assumed greater relevance, looking at the recent developments often needing rescue and evacuation.

2. While some of you have already shared the details by registering with the Embassy, the data, unfortunately, still remains incomplete, as several Indian nationals are yet to register themselves. Even if the sharing of details is voluntary, it is in your interest to be included in the system since the difficult situations do not necessarily come with adequate notice thereby allowing us time to compile basic data on your whereabouts.

3. The registration can be done by visiting the Embassy of India website and completing online the registration process at the link: <https://www.eoilima.gov.in/page-link.php?page=consular>. You are also requested to please register yourselves at the Global Pravasi Rishta Portal (<https://pravasirishta.gov.in/home>) by following the option given on the Home Page and sharing the information under the consular menu at Embassy of India, Lima sub-section. You can also benefit from the Pravasi Rishta portal which aims to create a three-way connection channel between Ministry of External Affairs, Indian Embassy and Indian Community.

4. All Indian nationals residing in Peru and Bolivia, including students (if there are any), are advised to act immediately and register themselves by providing details of their passports, course/profession, university/institute (for students), address, email IDs and other relevant data. I would seek your cooperation in enabling the Embassy to have the right and complete data.

With regards,

Yours Sincerely,

(M. Subbarayudu)
