The above web application has undergone through IT (Cyber) Security Audit by our organization through provided Testing & Production URL as per guidelines, advisories, white papers and vulnerability notes issued by Indian Computer Emergency Response Team (CERT-In). We also tested the **web application** against various Web Security Standards like Open Web Application Security Project (OWASP) Top 10 Web Risks, SANS Top 25 Software Errors, Common Weakness Enumeration (CWE), Common Vulnerabilities and Exposures (CVE), The Web Application Security Consortium (WASC) and Web Content Accessibility Guidelines (WCAG) etc.

Conclusion: On the basis of audit outcomes, it is certified that the above application is safe from any known vulnerabilities as on date.

The Certificate shall be deemed invalid if the underlying IT infrastructure of the web application gets modified after compliance audit.

Other Recommendations:

1. Web Server Security and the OS hardening need to be in place for the production server.
2. Web Application should comply with Guidelines for Secure Application Design, Development, Implementation & Operations issued by CERT-In.
3. Organization must comply with the Directions issued by CERT-In dated 28 April 2022 relating to information security practices, procedure, prevention, response and reporting of cyber incidents for Safe & Trusted Internet.
